

Career Services Disclaimer

The *College* may or may not deny entry to the college to those with felony convictions, misdemeanor or other criminal backgrounds. While the *College* offers job placement assistance to all graduates, placement services is not a guarantee of employment. Having a criminal background will make placement more difficult for graduates.

Students with a criminal background, who are granted admission in one of the programs may be allowed to enroll, but must be aware that depending on the program of choice some certifying and licensing bodies have restrictions that could affect persons with a felony conviction or other criminal backgrounds. Prospective students are responsible for contacting these regulatory bodies with any questions concerning eligibility or approvals and applicable laws.

I understand that, as a student of the *College*, it is ultimately my responsibility to secure employment upon graduation. I have read and fully understand these conditions and have addressed any questions with the admission representative.
